## FROM THE DESK OF THE DIRECTOR

Dear prospective students and parents,

I am delighted to welcome you at PYC BBA program.

Education is a lifelong process of transferring knowledge and skill, which creates an understanding of moral and ethical values and develops wisdom to guide one's life in a right path. Our country is still underdeveloped due to lack of wisdom and clear vision for development and our quality of life is poor. An academic institution is a place where future leaders are produced with clear mindset and vision. What happens if we fail to produce moral graduates? We at Public youth campus, BBA program are envisioned to fulfill this gap. Our focus is on complete development of our students by involving them in both scholastic & co-scholastic activities as suggested by Tribhuvan University. I am fully confident that this will help our undergraduates to realize, understand & explore their talents so that they can contribute to build the nation ahead. Besides, I would like to request you to be a part of motherland by preserving millions of rupees flying out from country in search of quality education, which is considerable loss of national resources. In order to materialize this, parents and the college authorities must work together to inculcate certain values in the students.

It is true that a plant carefully nurtured by a gardener will produce better fruits. Therefore, youngsters should be given a good sense of belongingness to the society and the nation. I hope that our students will carry forward this Motto of love and unity entrusted them at Public Youth Campus BBA Program and I am confident that our graduates will have their own approach to balance their personal life quality and conscientious to use national resources considering local and global challenges.

Finally, please "Do the work with intention not because of compulsion."

With best wishes,

Asst. Prof. Rameshwar Acharya (M.Phil)  
Director, BBA Program
